Experience

Product Designer (Lead)

Ihifix
Kaduna, Nigeria
July 2022 - July 2023

I was the design lead and partly the project manager for the success of some projects and ongoing projects in the company (Ubefu, Efa, Health Center Platform). I worked with the previous designer on a community development charter project for Kaduna State, Nigeria. I designed the mobile app for an open community project for Ebonyi State, Nigeria currently in the development stage. I also recorded live course for the company's academy and was also a UI/UX design tutor in the academy, I handled live trainings both online and offline. I have led various sub-tasks assigned to me in different departments outside the design scope.

Product Designer

CodeVerse Technologies
(Part-time, Remote)
September 2022 - Present

CodeVerse Technologies is a start-up tech company that build solutions for different industries like school, health, finance. I have worked on two projects with them within these industry as their designer. A secondary school website and a payment and registration pages for a school management system.

UX Designer

Desemp
Volunteer
May 2022 - April 2023

I researched and put together different resources for the company's website page, I also joined a team of 3 designers to build a design system for one of their products "Tusli" currently in the development stage, I have anchored series of standup meetings and sub-task meetings, I led a few team of 4 on a project research.

Product Designer Lead

Tentribe
Volunteer
May 2022 - August 2022

Team Lead for this project.
Directed and executed pre-production activities, such as creating mood boards or storyboards and establishing project timelines.
Worked with coworkers to complete tasks.
Participated in new product planning and market research, including studying potential need for new products with product managers.

Design Intern

Visiola Foundation
Abuja, Nigeria
April 2022 - June 2022

I led a team of 4 during the project building phase. My team and I worked on a Mental Help app that helps users discover their mental health status and connects them to therapists. My team came second at the end of the project presentation, and was the only project that was later adopted.
Using the design thinking process, we were able to build our solutions. As the only designer in the team, I came up with all the screens while the dev guys implemented this solution.

Product Designer

Littron
Lagos, Nigeria
Contract
August 2020 - March 2021

I worked on a contract project to design a mobile app for a Housing Management service. This project involved working with the stakeholders across **Littron** to build this project which consists of different features like estate management, leasing and home services. I did all the usexperience and User Interface designs, I reviewed the feedbacks from the user testing and did some iterations on the design.

Product Design Intern

Genesys Hub
Enugu, Nigeria
September 2020 - March 2021

I participated in SCRUM, Agile, and other stages throughout the Internship building usable products from time to time.
Redesigned and built new products from scratch using all the practices learnt.
Led a team of 8 during the internship that participated in different challenges and problem solving.
Worked on a Time travel app for my final project.

Product Design Intern

HNG
Remote
June 2020 - Sept 2020

I was a team lead at some breakout projects
Collaborated with other team members to build different imaginative products and solutions in the course of this program.
Contributed to a new feature for Piggyvest.
Redesigned hotel websites and other products.

Intern

Google African Developers
Scholarship (GADs)
Remote
June 2019 - November 2019

I was in the Mobile Dev Track. Building Mobile apps, improving my skills through lots of webinars and access to one of the best courses on plural sight.

Intern in HR Dept

Nigerian Liquefied Natural Gas
Port Harcourt, Nigeria
March 2018 - December 2018

I was the Siwes coordinator of all the Interns in the Organization. I also worked as the assistant secretary in the department. I worked on different documents using Excel and other Microsoft Applications and software. I handled different presentations in the department. I participated in the probation process of the Graduate Trainees and Documentation of all these processes at every stage.
